ABOUT THE VACANCY

Assistant Professor £45-£55k/ Associate Professor £55-£65k for BEng (Hons) Electrical and Electronic Engineering

We are recruiting to ASU London and we require staff to contribute across all of our Engineering, Business and Management and Computer Science programmes.

Academics teaching on our programmes should generally be skilled in guiding students through real-world challenges, supporting multidisciplinary teamwork, and using industry-standard tools and workflows given the highly practical, project-based pedagogy we have. They should be confident embedding sustainability, ethics, inclusivity, and responsible innovation into their teaching, reflecting the programme's emphasis on professional identity and societal impact.
In particular the knowledge for each programme requires is:

BEng Electrical and Electronic Engineering: Candidates should bring strong disciplinary expertise across core electrical and electronic engineering principles, including circuit theory, semiconductor devices, communication systems, control, power systems, and electromagnetics, with the ability to apply mathematics and computational methods to analyse, design and optimise engineering solutions.
