Professor (Engineering, Business and Management and Computer Science)
Salary **£65-£85k**

About ASU London:

ASU London, a UK-accredited higher education institution founded by Arizona State University, is focused on new and innovative models of teaching and learning in the UK. ASU London is the expansion and rebrand of The Engineering & Design Institute London (TEDI-London), which was co-created by Arizona State University in 2020. ASU London incorporates TEDI-London's innovative, project-based programmes in engineering alongside new degree offerings in business and management, computer science and electrical and electronic engineering. With new course offerings and a new strategic plan, ASU London is entering a new phase of growth, scale and institutional maturity, leveraging the extensive resources of Arizona State University.

For UK students, ASU London offers the opportunity to gain two international degrees and to graduate and work in the US. And for US students, ASU London offers the opportunity to travel and learn abroad in a global city.

For ASU London employees, tapping into the vast expertise and innovation from the #1 university for innovation in the US, 11 years running, and ranked in the top 1% globally, will allow for both personal and professional development opportunities.

Arizona State University is widely recognised as one of the world's leading and most innovative universities and renowned for its global outlook, employability, sustainability, applied learning, and strong links to industry. ASU London brings this prestige, ambition and academic philosophy into the UK system, creating a distinctive institution with international reach and long-term backing.

OUR VALUES – Inclusive – Collaborative – Inspiring – Courageous – Integrity

Our values underpin our developing culture, ethical focus and approach to decision making. You will be able to role model and champion these values along with all staff within ASU London, providing challenge and open discussion to ensure we do so all of the time.

ABOUT THE VACANCY

We are recruiting to ASU London and we require a Professor to contribute across all of our Engineering, Business and Management and Computer Science programmes.

We are seeking an exceptional academic leader to join us as Professor, bringing vision, energy, and internationally recognised expertise to help shape the next chapter of our institution's growth. This is a rare opportunity to influence the future of higher education while working in a vibrant, collaborative, and forward-thinking environment.

As a Professor here, you will play a pivotal role in defining and delivering world-class curriculum and pedagogy, driving innovation across our programmes, and inspiring both colleagues and students. You'll contribute to strategic educational leadership at institutional and national levels, championing outstanding teaching, mentoring staff, supervising doctoral researchers, and shaping pedagogic practice across the sector.

asu-london.ac.uk

You will bring a globally leading research or practice profile, with a track record of significant grant capture, influential publications or outputs, and the ability to set agendas within your field. Your work will help position the institution as a hub of thought leadership, creativity, and impact.

Beyond academic excellence, we are looking for a colleague who thrives in partnership—someone who builds meaningful external networks, forges industry collaborations, influences policy and professional bodies, and contributes to public and media engagement.

If you are excited by the idea of leading transformational activity, mentoring the next generation of academics, and contributing to a culture built on ambition, inclusion, and innovation, we would be delighted to hear from you.

HOW TO APPLY

If you wish to apply, please download our application form and send your application in addition to your CV via the **'Apply'** button above (e: **careers@asu-london.ac.uk**)

We welcome applicants seeking fractional/part time roles and urge people to apply early as we reserve the right to interview and appoint early.

Please specify clearly in your email subject the role you wish to be considered for and for which level. Should you wish to discuss the role further or for details on how to progress your application, please direct all enquiries to Peter Kay, Associate Dean of Academic Engagement and Partnership- peter.kay@asu-london.ac.uk
